

SCANDRILL INC.

LIBERTY

4 Years no OSHA Recordable 05/19/15

“Completely and Safely”

Congratulations to the crews and leadership of the Scan Liberty who achieved 4 years without an OSHA Recordable on May 19th, 2015. It was through sound leadership practices and buy in from all levels that this milestone was accom-

plished. Thanks to beautiful weather, we were able to celebrate the milestone this week with Rib-eye steaks and all the trimmings. We appreciate each of you for your efforts in supporting the desired culture. May each of you continue to prosper individually and as a team as you go about your daily tasks. Thanks for being an example to all of us!

- Management Team

Working together, being accountable and supporting the culture have gotten us to this level—Scan Liberty crew

SCANDRILL INC.

SUCCESS IS ?

These men are always willing to do whatever is asked of them. They always work together as a team should with no issues. This is how they are able to operate at such a high level.

- Clay Epperson / Consultant, Tanos

The success of the Scan Liberty is attributed to good people, everyone getting along with each other, teamwork, accountability and the most importantly each of them uses the tools that we have in place to do their work "completely and safely"

- James Blankinship / Rig Manager, Liberty

Through all the struggles and the ups and downs associated with this industry, I am extremely proud of these men for staying focused on maintaining the desired culture on their rig. I am excited to be part of this milestone and to be associated with such a great group of men.

- Larry Ward / Drilling Superintendent
